Docket #97N-0511
5630 Fishers Lane, RM. 1061
Rockville, MD 20857

December 8, 1999

To Whom It May Concern:

Please vote no to the FDA's Docket #97N-0511, mandatory pasteurization or radiation of all fresh juices. I have the following concerns:

1. The health benefits far outweigh the risks. Natural juice is healthier and our children need the nutrients to replace the ones not found in potato chips.
2. Fresh juice is safe. Outbreaks of disease are rare and related to poor manufacturing processes.
3. I like my freedom of choice and can make rational decisions on my own.
4. Government time, energy, and money are better spent on other things.

Sincerely,

Todd McDaniel
